

Singapore Electricity Consumption Survey

The purpose of this survey is to gather data and insights on electricity usage patterns, habits, and perceptions within Singaporean households. Your input will assist us in compiling an article that highlights trends and insights regarding electricity usage in Singaporean households, contributing to a better understanding of energy consumption habits and facilitating informed decision-making for future energy-related initiatives.

* Indicates required question

1. Age Group *

Mark only one oval.

18-24

25-34

35- 44

45-54

55-64

65+

2. House Type *

Mark only one oval.

- HDB 1-room
- HDB 2-room
- HDB 3-room
- HDB 4-room
- HDB 5-room
